## 5. CASH FLOW BUDGET STATEMENT - MAY 2025

Committee was referred to the Cash Flow Budget Statement and *Appendix 1*, and the Finance Manager gave a brief overview of the key factors:

- Overall cash position reported an increase at end of May 2025, a positive variance when compared to budget expectations
- Rental income collection was slightly less than budgeted and lower than anticipated by 3.46%. Retail rental income was slightly below budget due to a void period, however, there was a prospective leaser for the unit and the suggested monthly rent would be higher than budgeted resulting in some of the deficit being clawed back throughout the year
- Employee costs were broadly in line with expectations and savings were being realised relating to the employee salary base. An annual payment relating to III Health Liability Insurance was made in April, contributing to a slight overspend
- Expenditure in Property Costs had produced an underspend for the financial year to date

The Finance Manager then invited any questions, and a question was raised regarding rent due dates.

## 6. SHR - LOAN PORTFOLIO ANNUAL RETURN

The Finance Manager referred Committee to the above return and sought Committee approval for the Loan Portfolio Return for 2024/25 being presented. He noted that no loan covenants had been breached.

# 16. CLADDING UPDATE

The Property Services Director referred to his report, which had previously been tabled at the Audit & Assurance Sub-Committee in April, and advised that on 1 April 2025 a Scottish Government circular was received, focusing on building cladding and its approach to legislation and remediation.

Buildings constructed or comprehensively refurbished between 1992 and 2022 are at particular risk, and considering the Association's development history, a desktop review of all homes was undertaken. This review identified three developments with

cladding that would warrant further investigation, with one development meeting the four criteria for a Single Building Assessment (SBA). The other two developments should be deemed manageable with a diligent fire management plan.

He then updated Committee on each development confirming that two of the developments had been nominated for Fire Risk Assessments. Committee was then advised of the following actions taken in relation to:
