10.2% of current stock was surveyed by David Adamson and Partners in 2021. This was the fourth update on the main survey which was carried out by Armour Construction Consultants in 2004 and based on 45% of stock at that time. All stock not surveyed at that time was new build and less than 10 years old. Such new build stock not yet surveyed for compliance is identified accordingly in the record spreadsheet (although a proportion subsequently has been surveyed as parts of periodic sample condition surveys). Stock is re-assessed as and when work to bring it up to the SHQS is completed; and acquired stock (e.g. Mortgage to Rent) is assessed at time of acquisition. All records are subsequently consolidated onto a single spreadsheet.
